

Disable emails from Tyler Community

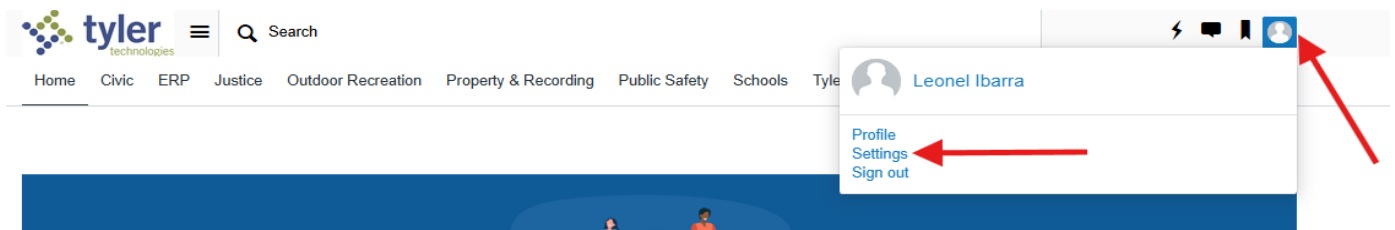

When users join Tyler Community and log in for the first time, they are automatically subscribed to multiple forums. This results in a large number of email notifications.

To stop receiving these emails, users need to manually unsubscribe from the forums. Here's a quick guide on how to do that.

1.- Go to [Tyler Community webpage](#) and, on the top menu, click on the user icon and then enter your credentials to login.

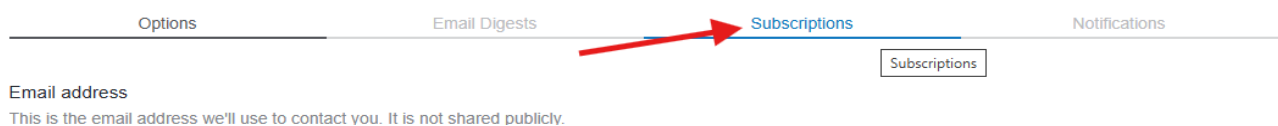

2.- Click on the user icon again and then select Settings.

3.- Click on the Subscriptions option

Settings

4.- Click on the unsubscribe link next to the forums you wish to stop receiving emails from (click on them all if you wish to totally stop getting emails) and then click on the save button.
